How do I share a link with my class?

Start by logging in. There is a separate document to support you with this if you need it. You will see this. Ensure you are on 'Stream' – you will know this because it will have a coloured line underneath it at the top:
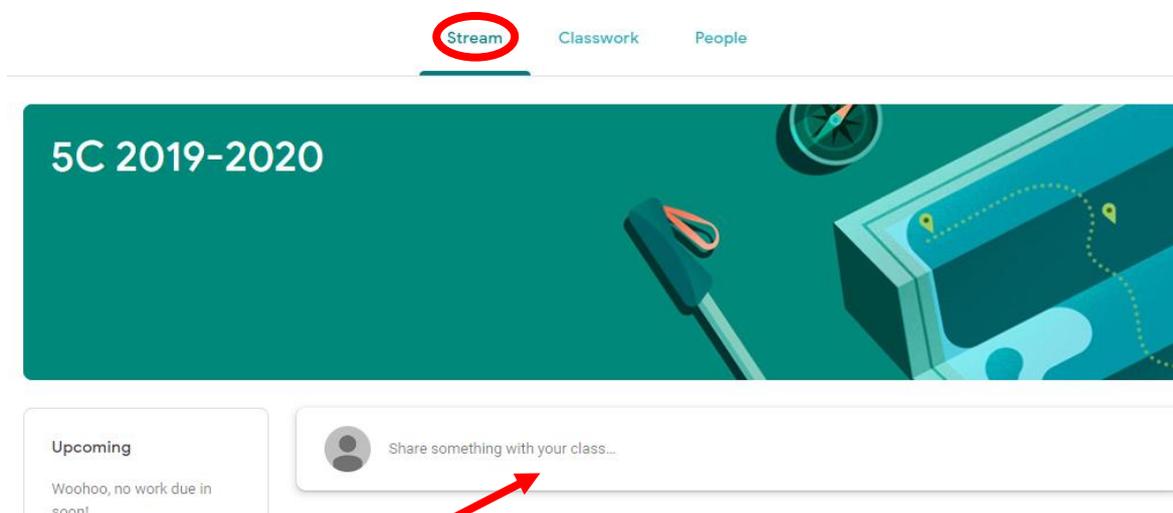

Start by clicking 'Share something with your class' like you would to share a message with the class.

Write a message, then click 'Add' near the paper clip symbol and then 'Link'. If you don't write a message, you will not be able to post the link.
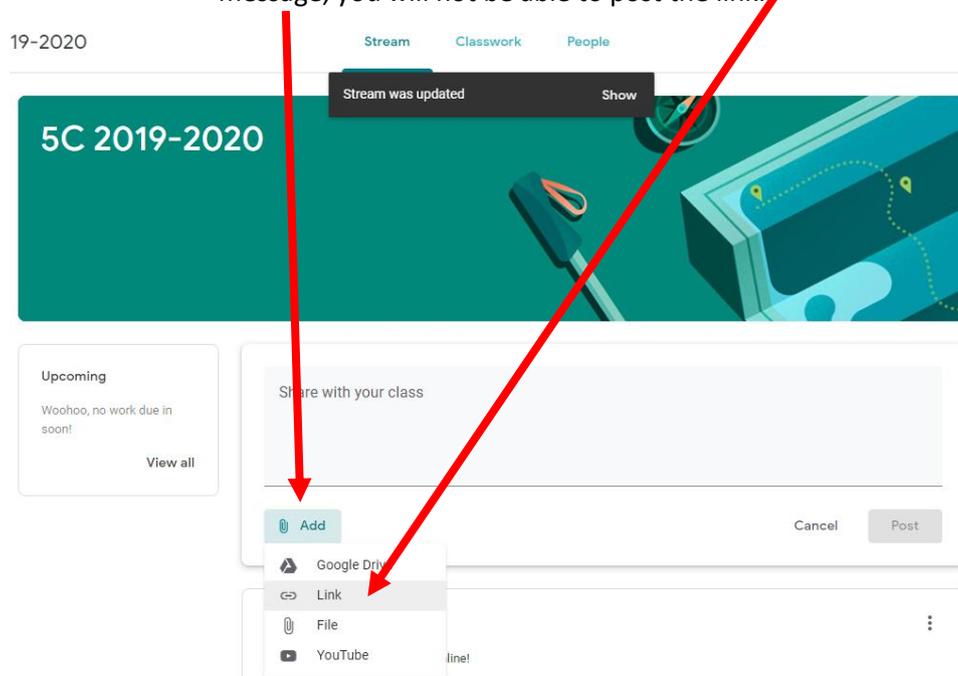

Now you will need to go and copy and paste the web address of the website you want to share.

Paste the link that have copied into the box:
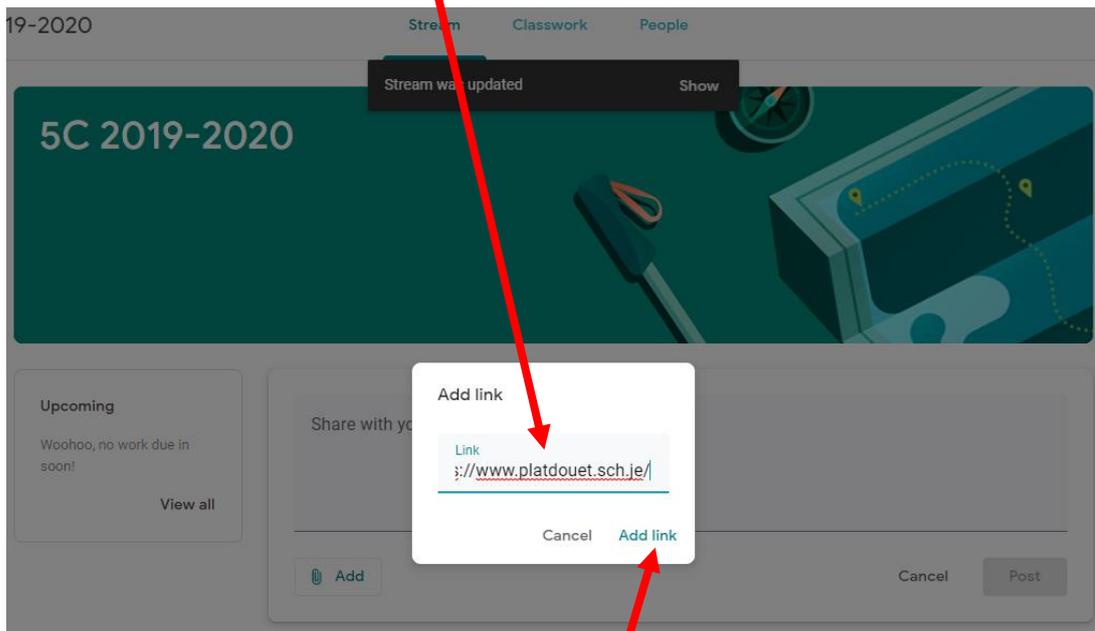

Then click 'Add link'.

Finally, click 'Post'.
