Maths

We will be completing activities focusing on the skills we have learnt so far in Year 5 including:

- Place value of numbers up to and beyond one million and to three decimal places
- Ordering and comparing numbers up to and beyond one million
- Negative numbers
- Column addition and subtraction of numbers up to and beyond one million
- Finding equivalent fractions
- Comparing fractions
- Short division
- Multiplication including times tables and multiplication of a 2/3-digit number by a 1 or 2-digit number.

We will also look at some reasoning and problem solving activities.

YEAR 5 HOME LEARNING

Dear Parents,

Here is an overview of tasks your child needs to be completing at home over the forthcoming weeks. We are committed to ensuring that your child is still learning as much as possible and endeavour to do our absolute best to keep this happening.

Please see the attached recommended daily work schedule to help you plan your day.

We will be in communication with you via Google Classroom and email as much as possible during this time.

Warmest regards,
Miss O' Donnell and Miss Clavel

d.o'donnell@platdouet.sch.je

g.clavel@platdouet.sch.je

History/Geography

We will continue our History focus on Victorians, looking at:

- The life of Queen Victoria
- The impact of the railway tracks in Jersey
- Life for a Victorian school child

Science

We will be looking at our new focus of the Earth in Space:

Completing a research project about the Sun, Moon and Earth.

Create a moon diary i.e check the phase of the moon each night (full moon, half moon etc). We will also give an activity to make a sundial clock.

Reading

There is still an expectation that children will read daily and have a signed signature in their diary. This is a great opportunity to read some good books – us adults certainly will be! Children have been asked to take extra Accelerated Reader books home to read and they can check if the books they currently own are Accelerated Reader books by going to arbookfind.co.uk.

Writing

Write your version of the 'Lost Thing' as planned in class- use your made up world and characters already created.

Write a blog from the perspective of an astronaut on the ISS (International Space Shuttle).

You can also go to <http://www.pobble365.com/> and complete the daily work for each picture on there. We would love you to share the writing with us that you produce on Google Classroom – let your imagination run wild!

As we are excellent at writing letters, we shall write a letter to a person (real or imaginary) of your choice!

Spelling, Punctuation and Grammar (SPAG)

We will be completing activities focusing on the skills we have learnt so far in Year 5 including:

- Relative clauses
- Punctuating statements, questions, commands and exclamations
- Using dashes, commas and brackets for parenthesis

We will also be recapping spelling rules, key spellings for Year 5, and recapping on fronted adverbials, conjunctions and expanded noun phrases.
