

Someone Special Photo Activity

Over the summer holidays, please could you compile a photo collage of your child's family and friends. We will use this for settling your child into Nursery. It will be a wall display at child height which they will then be able to see and talk about. You might want to use photographs from a special family event like a party, holiday, wedding or simply a photo taken in your home. You could add photos of your child's favourite toy or place to visit. You could include pictures about their favourite TV programme, games they play or anything you want to share with Nursery. This collage can either be a print out of your photographs or you can stick photographs onto some card. This is great way to talk to your child about starting Nursery and who is in their close circle.

Example 1

Example 2

Have fun with this activity and we look forward to seeing them in September.
